CNS Market Share Information

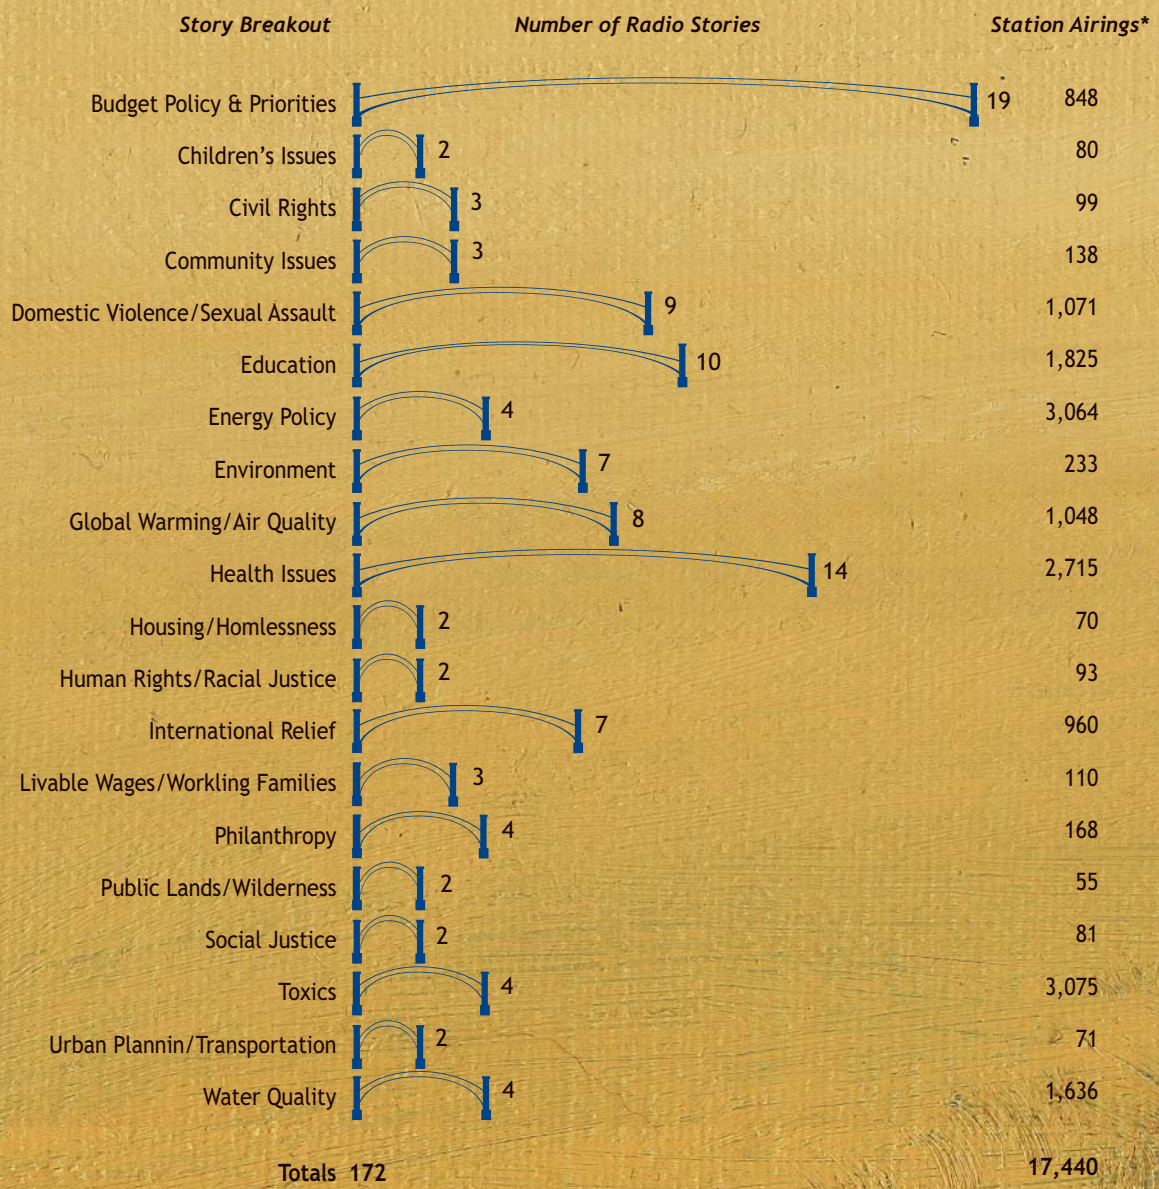

Massachusetts Broadcasters

“Well written, timely, and good details... Good topics... It provides another resource that really helps.”

“Our state-wide campaign requires public support from many areas of Massachusetts and one of the most reliable ways we have of getting information to the general public has been through PNS. The high quality of their stories is demonstrated by the number of stations that will air a PNS piece several times during the day. If you want to have a state-wide presence, you need to be working with PNS.”

Monte Pearson,
Health Care For All

* Represents the minimum number of times stories were aired.
