South Dakota Broadcasters

“Offers timely topics on issues important and useful to an audience... Variety of stories, well written, concise... Appreciate phone numbers and info on interviews contained in actualities... Good informative news for the whole state.”

“The Greater Dakota News Service has been particularly effective in getting information out about asthma, tobacco and legislative issues. Their staff is great to work with, and they can tell us which stations used the stories and how often.”

Kathleen W. Sweere,
American Lung Association of
South Dakota
