**46 statel/regional radio
stations aired NNS stories in 2005**

NNS Market Share Information

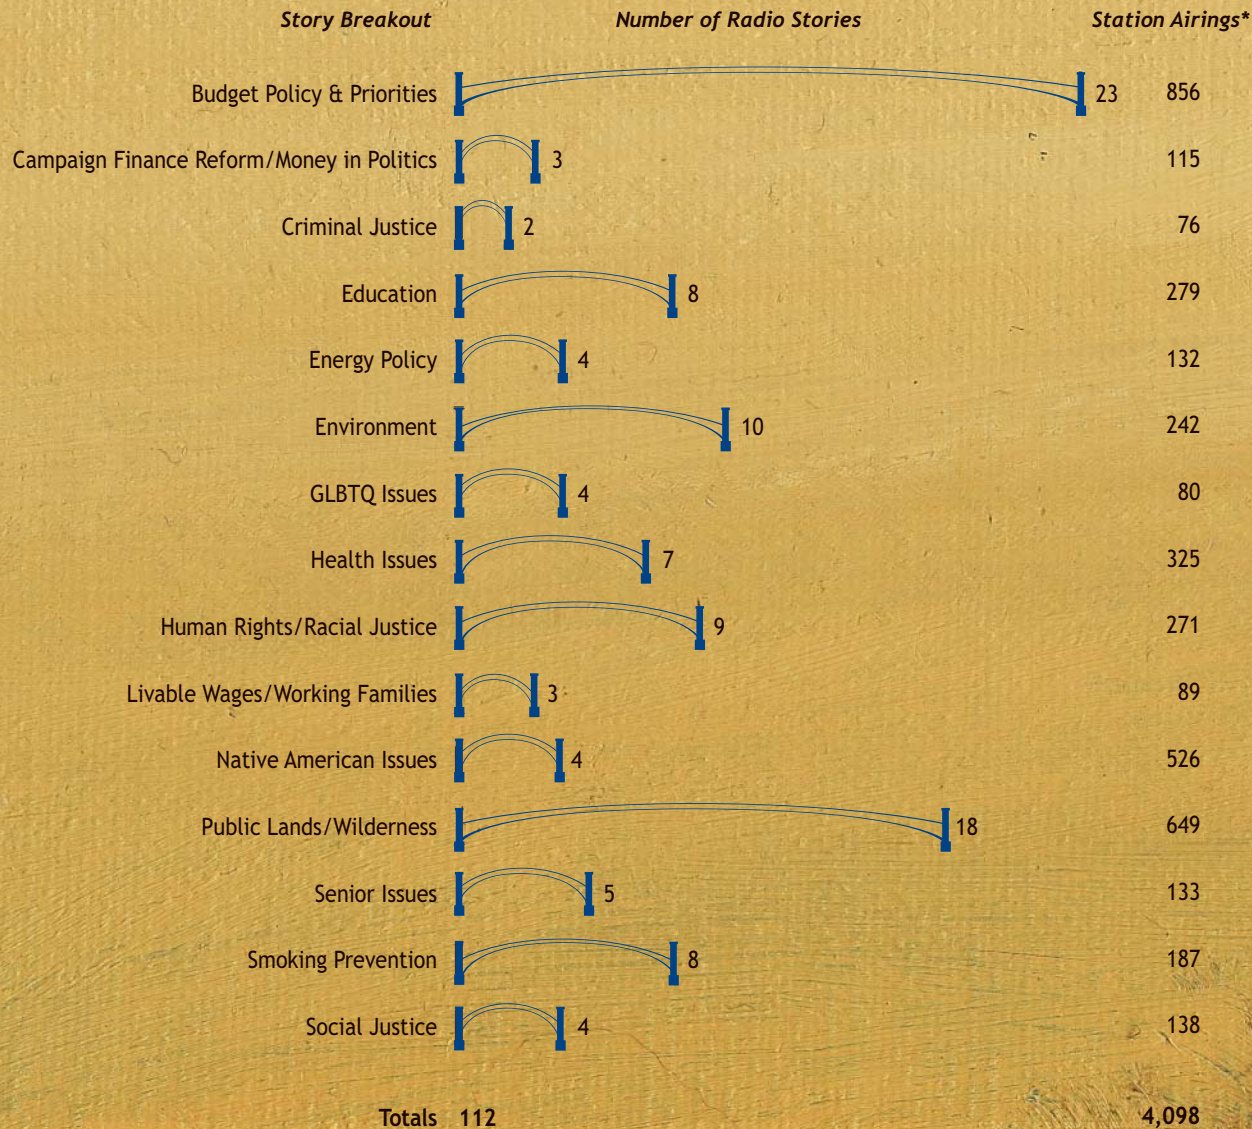

Nevada Broadcasters

“Good topics that have local and state or regional impact...It’s very handy and a useful addition to our news gathering...The service is a definite asset to our news operations, providing tape that we don’t have time to gather. Keep those stories coming.”

“How can we expect people to share our values if they are never heard? The Nevada News Services has become a valuable outlet for progressives here. The number of stories and the usage statistics do not fully measure the impact we are having on the issues. We are shaping public opinion, not simply reacting to it.”

Mark Nichols,
NASW, Nevada
