NEWS CONNECTION

2007 annual report

“Really like all the Long Island coverage.... Stories are topical and timely...It’s Just Great! Could use more from Eastern Long Island.... More upstate news covered (and a little less New York City)”...Useful. Covers statewide news and gives a local perspective.”

New York Broadcasters

“An important part of media reform is creating new models that bring voices and perspective forward in a way that evolves the public dialogue, and the community itself, to help bridge the various divides that separate us. It’s not easy. Public News Service is an excellent example and we strongly support their work.”
